On the Road Again: 2023 Transportation Improvement Projects

As the weather starts to heat up, so too is our annual transportation improvement project schedule. In 2023 we have some very exciting road construction projects coming up:

SR 502/503 Intersection Improvement Project:

The SR 502/503 Intersection Improvement Project is the third phase of the six phased SR 502/503 Congestion Relief Project. This project will bring dedicated left and right turn lanes and two through lanes on all four legs of the intersection, as well as other improvements to improve the flow of traffic.

Preliminary work for this project began in November 2022, which included utility relocation and the removal of the right in/out driveway to the business complex at the NE corner of the intersection.

Rotchy, Inc was awarded the contract for the project in July 2022, and broke ground in late March 2023 after completing the extensive material acquisition process. The $4.7 million project was funded through the Connecting Washington Program and the Federal Surface Transportation Block Grant, awarded by the Regional Transportation Commission (RTC). No city funds will be used to complete this project phase.

The preliminary project schedule work is projecting work to be competed in Fall 2023. Be sure to follow us on social media for construction schedules and project related traffic updates.

2023 Street Preservation Program:
Approximately $1.8 million will be invested in neighborhood streets to improve pavement conditions in 2023. This year's work includes mill & fill projects with curb ramp upgrades; pothole repair; crack sealing; and lane striping.

Mill & Fill Locations:

- E. Main Street; between Parkway Avenue. to E. Fairgrounds Avenue
- SW Eaton Blvd.; between NE 9th Avenue to S. Parkway Avenue
- W. Main Street; east from SR 503 (600ft)

Pavement & Pothole Repair Locations:

- NE Grace Avenue: between NE 10th Street to NE 1st Street
- NW 20th Avenue; between NW Onsdorff Blvd.
- SW 20th Ave; between SW 7th Circle to SW 11th Street

Chip Seal Locations:

- E. Main Street; between E. Fairground Avenue to NE 16th Avenue
- NW 25th Street; between NW 4th Avenue to N. Parkway Avenue
- NE 132nd Avenue; between NE 249th Street to NW 25th Street

For more information on these projects and to learn more about our Streets Program please visit our website at:

Volunteer Feature: Jennifer Rosenberger

Parks & Community Engagement Advisory Board

Gaining new experiences, giving back to the community, and sharing her passion for community engagement are just a few of the reasons Jennifer Rosenberger was inspired to get involved with the Battle Ground Parks & Community Engagement Advisory Board.

Parks & Community Engagement Advisory Board (PACE) is comprised of volunteers who support city parks and recreation programs by fostering public interest in events and activities. The board also serves in an advisory capacity, making recommendations to the city council regarding the development and operations of public parks, playgrounds and recreational facilities.

Jennifer has served with the PACE Board since 2019. "I have always been interested in city government," Jennifer shared, "and parks seemed like a good place to start getting involved." Having volunteered with the Evergreen Habitat for Humanity and the Gresham Area Chamber of Commerce, she is always on the lookout for opportunities that fit her skillset which include marketing, community outreach, and event planning.

PACE Board members work closely with the Parks & Recreation department to brainstorm and volunteer for annual City events such as Parks Appreciation Day, Fright Night, the Holiday Tree Lighting Celebration. They assist with the development of new programs such as the recent Cornament: Cornhole Tournament, having suggested the event concept and working with local businesses to gather door prizes raffled off to the contestants.

"I have learned so much about our community from attending some city council meetings," said Jennifer. Members of the PACE Board have the opportunity to provide guidance to the City in the development and implementation of long range plans including the Parks, Recreation and Open Space (PROS) Plan. The PROS Plan, updated in 2022, provides a blueprint for the growth, enhancement, and management of our parks and recreation system. Jennifer continued, "It is very interesting to see all the work that goes into maintaining our parks system now and into the future. I would encourage anyone to be involved in their local government; you really see both sides of the story when you stay informed on local projects."

Jennifer Rosenberger
Pace Board - Chair

Getting Involved:
The seven-member PACE Board currently has one vacant position, with a term ending in December 2024. If you have considered getting involved with local government but weren't quite sure where to start, be like Jennifer, start in the parks!

The Board meets once a month, as needed at the Battle Ground Community Center. Learn more about this and other volunteer boards and commissions on our website at: www.cityofbg.org/CityGovernment

In closing, Jennifer shared, "Even though I normally volunteer doing work that I am comfortable with and trained for, I always take away new skills and knowledge that has helped me grow both personally and professionally."
